

EXCEED enables organisations to monitor and support the growth of their micro-entrepreneur clients and access ready-made reports instantaneously. EXCEED uses the latest mobile technology to provide a complete and needs-oriented record-keeping solution for the micro-entrepreneur.

Users capture cash-counts, bank balances and expenses using the EXCEED app.

Data is temporarily stored until it is synchronised to the app-user as well as via an internet connection, the supporting organisation with the user's account via the internet. securely held on a server.

Automatically processed reports are made available to the app-user as well as via an internet connection, the supporting organisation with the user's account via the internet.
